

## HIGH SCHOOL GYM ON UPPER FLOOR OF WASHINGTON

It is up to the Board to Decide  
Whether Room Shall be Fixed  
for This Purpose and  
Whether Plan is Practicable  
at All

### SUPR. CARRAGEWAY'S OPINION.

It is "up to" the building committee to any whether a conversion of Washington school into a gymnasium is practicable, and as soon as the school board meets again, the matter will be referred to this committee with request that an inspection and report follow as soon as possible.

There are many supports in the attic but these can be safely removed. The width of the attic is 19 feet, rather narrow, but it can be made to answer for basketball, which requires a great deal of floor room. There are enough windows in the attic to furnish sufficient light, but if more light is needed, skylights can be cut in with little cost.

"The only question in my mind," said Superintendent Carrageway, "is whether the ceiling of the third floor rooms will stand the strain. If another floor is built, I believe the plastering will remain intact. This, however, is the point we desire the committee to decide. On the committee is Contractor Karpas, and he should be able to tell us."

It is thought the expense will be comparatively little. The object is to fit out the attic for a permanent "gym", and money appropriated by the school board can be increased by football receipts, basketball receipts, and entertainments given by classes.

### MRS. HARRIDGE FOUND.

Wife of Former Counsel of Harry  
Thaw in Sanatorium.

New York, Oct. 10.—Mrs. Clifford W. Harridge, whose name has been on the books of the police department for several days as that of a missing person, her husband having asked the police to send out a general alarm for the discovery of her whereabouts, is reported to be in a private hospital in this city. Her presence there is said to have been known to members of her own family, although her husband has been kept in ignorance of the fact.

Mrs. Harridge went to the hospital to have a surgical operation performed, and her stay in the institution will probably be prolonged several weeks. The operation she sought to have performed was not of a particularly dangerous character.

### Neutral and Torpedoes.

The Hague, Oct. 10.—Oct. 10.—The eighth sitting of the peace conference today discussed the rules for laying of submarine mines and the convention concerning the rights and duties of neutrals in time of war. The mines convention had been adopted unanimously with reserves by several powers, when Sir Ernest Satow, Great Britain, read a declaration saying that Great Britain did not consider that the convention afforded sufficient protection of the rights of neutrals to navigate safely, which, he said, was more pressing than the necessity for belligerents to spread mines over the seas. Sir Ernest added that Great Britain did not consider the convention to be a definite solution of the problem.

## WAS IT CAPTAIN OF POLICE, OR WAS IT CAPITOL POLICE, OFFERED TO CHIEF COLLINS?

Proposition Was Made to Him and  
Blotter Attests Subject of Con-  
versation

### CAPTAIN POLICE \$1,500.

Scrawled across a blotter in the office of Chief of Police Collins are tell-tale words, and they gave the first clue to the story of a deal that fell through, because it takes two to make a bargain.

Two days ago The Sun published the story that Chief of Police Collins had been offered a position as captain of the Paducah police. The offer was made by Tom Harrison's friends, but The Sun did not pretend to say whether or not Mr. Harrison authorized the offer. The Sun did say, that Chief Collins turned down the offer.

Yesterday evening the following statement from Mr. Harrison appeared in the News-Democrat, after he had been offered since in The Sun: "The statement that I have made a promise of appointment to any one, or that any person by my authority has done so for me is untrue. My policy has been and now is, to steadfastly refuse a promise of appointment to any one. My friends know this to be true. Whenever and wherever the expediency of rescinding this policy has been discussed the matter was instantly dismissed by me."

Offer Was Made.  
Chief Collins says the offer was made to him and names those present when the offer was made, and he says he turned down the proposition.

The conversation took place Sunday in the chief's office in the city hall.

Chief Collins believes it was captain of police he was offered. He said:

"The proposition was made to me in so many words: 'You can get that,' and this was written on the blotter and shoved over to me: 'Captain police, \$1,500.'"

"I said: 'I don't want to place. He (Harrison) has nothing to do with the police. The board of police and fire commissioners make the appointments.'"

"I was told the chief had been decided on, but this could be had, a day job at \$1,500."

"I said I am not going to get out and work this year. I am going to vote, that is all."

It Was Capitol Police.

Chief Collins is corroborated by others present at the time, but the explanation is made that he is mistaken in the position. He was offered the position of captain of police at Frankfort. And this is the story related, which reveals further plans of the local ring in the event James P. Smith is elected mayor—to put Paducah on the metropolitan system, taking the power of appointment out of

## Engineer Robbed While He Slept In His Caboose and His Clothes Are Cut By Malicious Thief.

When Engineer Ed Walker awoke in the caboose of his train at an early hour this morning he found his money cut, his watch and chain and money gone and his shoes slit to pieces. It was all done while he slept, and no clue to the identity of those guilty was left. Walker came

in with engine, 506, pulling an Illinois Central test train of 2,480 tons weight. He went into track No. 2 in the shop yards and waited until he got orders to leave the train. Going into the warm caboose he took off his shoes to sleep. His loss will amount to \$100.

the hands of the mayor and placing it in the hands of the governor.

Several local politicians were talking with Governor Beckham and others concerning the advisability of adopting the metropolitan system for Paducah, when the purpose of ousting Chief Collins, announced as the Harrison program, came up. Several deplored the proposal, and they fell a-talking of what could be done for Chief Collins to make him feel good about it.

Someone suggested that the chief is a good man and should not be dropped. Others concurred, and then the happy suggestion was made, that he would just fit in as capitol police.

According to those on the inside, Governor Beckham took no part in the conversation at this point. But, be that as it may, they got around Chief Collins Sunday and placed the hat before him; but, when he declined to bite, they failed to remove every particle of the hat, and some explanation had to be made about the tell tale blotter.

Gen. George W. ## Airy, Fairy Lillian Has Public Sale, But She is Not Broke. By No Means

New York, Oct. 10.—If Teddy Solomons in his life had walked into those upper Fifth Avenue auction rooms this afternoon, he would have been surprised. Certainly Mr. Solomons, who is a former husband of Lillian Russell, was never arrayed like those rooms, in which were displayed articles of art and virtu now belonging to his former wife, but to the high of bidders. And it is just possible that he might have remarked:

"Behold the Lillian of Weber and Fields (formerly)." He might, but it is to be hoped not. It would be, of course, highly rash to conclude that just because Miss Russell is selling her junk de luxe it follows that she is broke. Nothing of the kind. She says herself:

"I am disposing of my objects of art because I am going away from here. I am going on a long trip around the world, and I do not wish them to be left to the ravages of time and

careless servants."

"Going Away From Here?"

When she reached this conclusion she summoned the auctioneer and the following conversation ensued:

"I am going away from here."

"From here?"

"Yes, from here."

"For good?"

"Yes, for good."

"Good. Then I will buy your possessions."

The gorgeous array in the auction rooms on Monday afternoon is the result of this conversation. It must not be supposed that Miss Russell is sacrificing all her household possessions in this sale. By no means.

"Understand this one thing plainly," she said to the auctioneer person when she was concluding the deal. "You may have my Dresden china, my Tiffany glassware, all my old masters, including the Perugina; and all the early Grand Rapids furniture

and the late North German Lloyd tapestries. But my library is sacred. Much of it was presented to me by the most prominent bookmakers in America. There's my precious first edition of 'Goodwin's Official Turf Guide,' for instance. How could we—I mean how could I—ever get along without that? The luxuries may all go, but the necessities must be spared."

Artists' Gifts in List.

So there are no books on the auctioneer's list. But though there is no literature for sale there is much art to be had. A good deal of it was presented to Miss Russell by the artists.

There's a Buster Brown drawing given to Miss Russell by R. F. Outcault himself, for example, and the Noah's Ark hotel drawing presented by the aesthetic Swannerton in person, and a real Gibson girl picture from Mr. Gibson in person. Miss Russell may have been the model for it, but if so it must have been at least as long ago as the ante-Petrucci days. The "Rebecca at the Well" picture, said to have been christened by Jesse Lewisohn "the gal with the chaser," is not included in the collection, though there are two photographs of studies by Gerome representing just girls, that's all. And that's all, too. Just one moment, though. Come to think of it, one of them wears a pompadour in her left hand. And there is an original drawing presented by some dear friend whose name Miss Russell cannot now remember.

No Diamonds for Auction.

To forestall any disappointment, it may as well be said right here that the Tiffany glassware part of the exhibit includes no diamonds. There are no diamonds whatever in the entire lot. But there are four cuspidors—a Doulton, a blue and white Nankin, and two Rockwoods. Not a spittoon in the bunch. The catalogue does not mention the names of the donors, but Miss Russell has admirers in Kentucky as well as in every other state in the union who realize that no family should be without a cuspidor.

Persons Interested in Miss Russell's intellectual development will pass rapidly from the cuspidor department to take notice of two antique bronze Buddhas. They are nice little Buddhas, indeed, and are regarded as considerably more valuable than the cuspidors, though possibly not so rare.

Dominoes Recall Rumors.

An uncommon set of mother of pearl dominoes recall the stories set in currency some time ago by some evil minded person regarding the high play at dominoes that was alleged to be going on behind darkened windows in Miss Russell's home. No person who knew Miss Russell credited these sinister rumors, but if high play had been going on there are undoubtedly the dominoes that would have been used.

Not far from the dominoes is to be seen a "bronze dog." In the next cage is a "real bronze dog." All the connoisseurs of Broadway will at once perceive the importance of this distinction, which is enforced by the presence on an adjoining shelf of a "genuine" Benares brass bell. But if the collectors know their business they won't overlook a large wastebasket with pyrogravure pearls. It has received more "mash" notes than

### A CLEANLY AGE.

Twentieth Century Ideas Incline Toward Sanitation and Preventives.

Nowadays scientists believe that in cleanliness lies the secret of prevention of diseases.

To prevent a disease, remove the cause.

## HOW TO MAKE THE BEST REMEDY

Fine Recipe for Rheumatism and Kidney Trouble—Gives Prompt Relief and Doesn't Cost Very Much.

YOU FIX THIS UP YOURSELF.

A large health publication tells its readers of a number of simple and effective prescriptions that can be made at home. The following, however, for the cure of rheumatism and kidney and bladder troubles receives the greatest praise, viz., Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. These simple, harmless ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal, and at bedtime, drinking a full tumblerful of water, after each dose. It is further stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic affections, relieving the aches and pains and reducing swellings in just a short while.

A well known local druggist states that this mixture acts directly upon the eliminative tissues of the kidneys; cleanses these sponge-like organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

Cut this out and hand to some sufferer which would certainly be an act of humanity.

### THEATRICAL NOTES

#### THEATRICAL CALENDAR.

Thursday night—Jane Corcoran in Ibsen's Doll House.

Friday night—The Young Buffalo.

Saturday matinee—Chas. B. Hanford in The Merchant of Venice.

Saturday night—Hanford in Cleopatra.

"Doll's House" Tonight.

In Nora in "A Doll's House" will appear at the Kentucky tonight, Ibsen drew a woman, the plaything of a husband, away by his every impulse, a slave to his desire, but who comes to understand her position finally and frees herself from it. When the husband with whom she lived for eight years and for whom she bore three children, fails to reach the height of

any other basket in the business. It has been working for—well, for more years than it would be polite to say—certainly long before Miss Russell bought a farm and went over to work among the green things of Long Island.

Objects in the Exhibit.

The exhibit includes, among many other objects of art and virtue: Two brass bedsteads.

Carved English oak extension table.

Another, after somebody.

Delft plaque, reproduced from an original by Rembrandt.

Another, after Ibrahim.

One folding card table, somewhat worn.

Also a bunch of booze flasks of the like of which—well, there are champagne bowls, punch bowls, claret glasses, sherry glasses, liqueur glasses, brandy frappe glasses, hock glasses, cocktail glasses, tokay glasses, Moselle glasses, whisky glasses, and decanters to burn. Naturally, there is a good deal of copper, and most of it is real. But there isn't a husband in the collection. There were once—but that is another story.

her ideal, Nora frees herself from the marital yoke in a declaration of independence, as startling a piece of writing as has been done in a century.

Holmer, the husband, fails to grasp the magnitude of the sacrifice of which Nora is capable, and in his haste, loses Ibsen's opportunity for the adornment of the play.

To save his health and to obtain money to do this, Nora forges her father's name to a note which turns up in the hands of an unscrupulous man. The note proves Nora's undoing, as she had hidden the knowledge of it from her husband, the man she sought to benefit. When her act has been made clear to him, he casts her off, only to take her back in his favor when the danger of exposure had passed.

But when her husband declined to assume the responsibility for the signature as Nora had expected him to do, she realized his limits, saw clearly his selfish nature and in a stormy scene declared herself free. The miracle, as she so termed her husband's expected act of responsibility, did not take place and in her disappointment in the man gave him up as well as her children.

In this scene, Miss Corcoran triumphs. Her doll like nature sloughs off as she stands revealed as the woman who has learned, as the woman who dares the unconventional. The critics are a unit in declaring that Miss Corcoran as Nora, has set a higher mark than any living actress.

#### "Young Buffalo."

Charles E. Blaney's great production, "Young Buffalo, King of the Wild West," will be presented at the Kentucky October 11. While the melodramatic features are many, the comedy element is strong, and many laughable situations are presented.

Mr. Blaney has been fortunate in securing a company extremely well suited to the demands made upon them, and the story is told in a striking and convincing manner. The scenic equipment is most elaborate and true in every detail. The company numbers 20 people, among whom are many favorites. A band of real Indians and a number of frontier characters.

#### Shakespearean Treat.

In making a special price to the schools of this city for Mr. Charles B. Hanford's magnificent production of "The Merchant of Venice" Saturday, October 12, Mr. F. Lawrence Winkler, business manager for Mr. Hanford and one time Shakespearean actor of note, states that this is an unusual concession on the company's part, and he wishes it to be accepted by the city of Paducah as an appreciation of the healthy patronage which they have always been favored in this city.

While Mr. Hanford's productions have always been eminently satisfying and have from year to year been a feature of the local theatrical season his offering for the season 1907-08 is by far his most ambitious effort from both a standpoint of scenic effects and support, and his appearance in Shakespeare's two great plays will be one of the notable productions of the season. "The Merchant of Venice" is the matinee bill and "Anthony and Cleopatra" at night.

#### Mahara's Minstrels.

Mahara's minstrels, composed of 20 people, male and female, presents only the finest of entertainments by the best of selected artists and assembly of sweet singing colored people in catchy music, light comedy, dancing, acrobatics, perfect instrumental music, beautiful scenery, costumes and light effects. Comedy that is clean, wholesome, perfect and delightfully pleasing. Not a dull moment, making in all a high-class, enjoyable evening's pleasure. This company will appear on Monday, October 11, at the Kentucky. The entire balcony will be reserved for colored patrons.

#### Postage on Post Cards.

Washington, Oct. 10.—Post cards enclosed in any kind of covering must be paid for at regular letter postage, according to an order just issued by the third assistant postmaster general. Some time ago one of our subscribers asked for the postal regulations on this subject, which was then under consideration. The order of the third assistant postmaster general follows:

"Post cards and postal cards mailed under cover of sealed envelopes (transparent or otherwise) are chargeable with postage at the first class rate—two cents an ounce of fraction thereof. If enclosed in unsealed envelopes, they are subject to postage according to the character of the message— at the first class rate if wholly or partly in writing, or the third class rate (one cent for each two ounces or fraction thereof) if entirely in print, and the postage should be affixed to the envelopes covering the same.

"Postage stamps affixed to such cards enclosed in envelopes having an opening exposing the stamps cannot be recognized in payment of postage thereon.

"However, where such cards, properly addressed and prepaid—bearing no matter rendering them unrecognizable under postmaster general's orders Nos. 146 (par. 5) and 539 (par. 4) when sent openly in the mails—are enclosed in envelopes, it will be assumed that they were inadvertently placed under cover, and they will be removed therefrom and dispatched without additional payment of postage.

Austria invented the postage stamp.

## S.S.S. NATURE'S TONIC

Every one should take a tonic in the Spring; their systems require it. The blood has become thick and sluggish with the accumulations left in the system from the inactive, indoor life and from the heavy, rich foods of the Winter season. The blood, being in this unnatural and disordered condition, is unable to furnish the body with the increased amount of nourishment necessary for the more energetic life of Spring and Summer, and the system suffers from debility, weakness, nervousness, indigestion, loss of appetite, and many other unpleasant symptoms of a disordered blood circulation. When the system is in this run-down and disordered condition it is not safe to take unknown concoctions, sarsaparillas, compounds, etc., because they usually contain potash or some other equally strong and harmful mineral ingredient, which acts unfavorably and often dangerously on the depleted, weakened system at a time when it needs gentle and natural stimulation to throw off the impurities and recuperate its lost energy. S.S.S. is appropriately called Nature's tonic. It is made entirely of roots, herbs and barks from the great storehouse of forest and field, selected for their purifying and health-restoring qualities, and as it does not contain the slightest trace of mineral in any form it is perfectly safe for young or old. S.S.S. acts directly on the blood, ridding it of all impurities and poisons, and restoring the lost properties of rich, nutritive strength so that it is able to supply the system with the healthful, invigorating energy needed to pass the trying season of the year. Its action is the most pleasant, prompt and satisfactory of all tonics, and those who feel the need of such a medicine will do well to commence the use of S.S.S. at once. S.S.S. restores lost energy, relieves the tired, worn-out feeling, helps the appetite, aids digestion, and adds tone and vigor to the system. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

## TALK OF SEWERS AFFECT VALUES

Lindsey Says Land is Held  
High in Sewer District  
No. 3.

Property Owners on North Side Protest Against Assessment for Sewers.

THE BOARDS WILL INVESTIGATE

An hour and a half session of the general council in committee of the whole last night resulted in a decision to personally inspect all territory embraced in proposed sewer district, No. 3, to ascertain that portion of it needing sewerage.

Many property owners were present and made speeches, and the matter was thoroughly discussed in every detail by property owners and board members. At the same time of inspection of sewer district, No. 3, the members will also inspect the sanitary dumping station with a view of establishing a permanent dumping station. The tour is to be made on Friday afternoon, Councilman Van Meter and property owners furnishing means of conveyance.

Aldermen Hannan and Hubbard were absent.

Mayor Yeiser stated that he had called the meeting to discuss sewer district, No. 3.

Mayor Yeiser was elected chairman and made a full statement regarding the matter, covering action taken by the city from the mere mention of district, No. 3, to the preparation of plans. City Engineer L. A. Washington presented a detail map of the proposed district, and explained it thoroughly. The map was prepared by Engineer John Alvord, of Chicago.

Many property owners and real estate men were present to protest against extending sewers into low land, and unplatted, and unimproved property, original plans showing such property to be invaded. Taxpayers objected, because they claim the property is not worth the improvement.

To properly open the subject for discussion, Alderman Palmer moved to extend sewer lines "as far as practicable."

Alderman Palmer, who was a member of the board ordering plans for No. 3 sewerage district, stated that the necessity of sewerage had impressed the boards to such an extent that they prepared for district, No. 3, in advance, that no delay might be occasioned when the city was in a condition to finance the improvement. He explained that the best sanitary engineer possible was secured in Mr. John Alvord, who came here, made a personal investigation, and drew his plans from an absolute personal knowledge of conditions here. Alderman Palmer stated that he understood some property embraced in the plans was not improved compared with some portions of the town, yet it is within the city limits and subject to taxation for sewerage improvements. He suggested a remedy; that a main trunk line sewer be run down Trimble street to the river, the cost to be pro-rated among property owners in the entire district. This, he stated, will give an outlet to all north side sewerage which may be built in the future. Then bring in another ordinance, providing for sewerage in subdivisions of district, No. 3. This will embrace all property sufficiently improved to demand and bear the expense of sewerage taxation. He invited criticism of his suggestion.

Mr. Robert Noble, an extensive property owner in district, No. 3, stated that Mr. Palmer's suggestions seemed plausible, but he thought the probable cost of the main trunk line sewer would exceed the value of the land on the extreme north side. He suggested a personal inspection or investigation, by the boards. "It is a matter that must be investigated before you impose such a tax," he concluded.

Mr. H. G. Terrell, another property owner, stated that he would not fight sewerage where needed, but was decidedly opposed to taxing when not necessary, and he did not believe that portions of land embraced in No. 3

sewer district is worth such improvements. Mr. Terrell declared that there are 200 acres of land on the north side with a natural drainage, used for farm land, and that it is not worth half the proposed improvement. He predicted that if the city invaded this part of the city, the city would have to pay the entire cost. He stated that sewer taxation should be made in proportion to the value of the property.

Mr. L. M. Blake spoke in favor of sewerage "when needed," but not when property is not worth it. He stated that some land in the extreme west end is worthless for city purposes.

Mr. W. A. Gardner stated that his sentiments were fully expressed by Mr. Terrell. He suggested a personal inspection of property, and offered to furnish vehicles to members for such an expedition. He thought that the sewer should not be extended farther than Flournoy street.

Mr. Albert Dumaine, who owns land on the north side, stated practically the same.

Attorney J. S. Ross, representing H. W. Rottgering, an extensive property owner in district No. 3, spoke briefly, dwelling on the worthlessness of many acres of his client's land for city purposes. He stated that the city had a right to build sewers through its streets, and that Mr. Rottgering's property is not platted, has no streets, and is his own property, and not legally subject to sewerage taxation. He declared that the city has no right to construct sewers except on its streets.

H. W. Whittemore who owns 30 acres of land within the proposed district, stated he is in favor of sewers where practical, but that sewers in certain portions of proposed district, No. 3, would be valueless. He estimated the per cent of taxation at 300 per cent, and suggested a personal inspection of the district before acting finally.

Mr. George Bernhard said: "I have got a hollow down on Eighth street; I paid \$250 for, and if the sewer goes through it why, I'll just give it to the city."

Mr. Charles Rieke stated he would like to see sewers where needed, but that in certain localities it would mean a confiscation of property improved. He thought Alderman Palmer's suggestion a good one; also Mr. Terrell's suggestion of a comparative taxation.

Slump in Value.

Councilman Lindsey expressed surprise that the property took a wonderful slump in value when sewers were talked of. He stated that in all improvements some are benefited while it may work a hardship on others. He said he asked for a price on a 10-acre tract in low lands in district No. 3, and found it worth \$400 per acre. He stated that some property owners would not sell or build on certain property in the district. He declared that adjacent to Mr. Rottgering's property one cannot buy a building lot for \$300 per acre. He cited the decrease in Paducah's mortality rate since sewers were installed, and declared heartily in favor of sewerage. He desired the hardships to rest on the fewest, and suggested to "get together" and come to some equitable agreement.

Alderman Palmer stated: "We were placed here to run the city, and are expected to do so. We are going to build sewers, and are not to let hills and hollows stop us."

He said some property owners are holding to property for its value ten years from now.

Alderman Chamblin stated that Engineer Alvord looked into the far future when he made plans for district No. 3. He said that it is not the intention of the engineer or legislative department to sewer the entire district at once, especially if it works a hardship on any one. Alderman Chamblin suggested to refer to a committee for an investigation into the costs.

Councilman Williamson was in favor of taxing all the entire city for district No. 3.

Councilman Foreman stated that

he preferred to investigate more thoroughly.

Mayor Yeiser suggested that the main sewer be built by a general tax, by 4 per cent bonus, payable in 10 or 15 years.

Councilman Duval thought that such an arrangement would precipitate injunction suits, and legal complications.

Alderman Hannan suggested a personal tour of district No. 3, by a joint committee from the boards with property owners both for and against the improvement.

The motion to extend sewers in district No. 3, as far as is practicable, carried, Councilman Williamson voting "nay."

Councilman Van Meter offered to furnish a wagon for the members to inspect the territory. Property owners also offered carriages.

The motion to have another committee of the whole meeting on Friday afternoon at 1:30 o'clock to inspect the district carried.

On motion the committee adjourned.

## LILLIAN TUCKER

MAY BE MISSING ROSSINGTON  
YOUNG WOMAN.

F. R. Tucker Asks Police To Inquire  
About Girl Who Died In  
Chicago.

Fearing that a young woman who mysteriously died in Chicago a few days ago is his daughter, F. R. Tucker, of the Rossington neighborhood, has engaged the services of Paducah police department to secure more detailed information regarding the unfortunate young woman. The name and description fits his daughter minutely.

Miss Lillian Tucker, of Rossington, was about 20 years old, and for a time worked as waitress in a Paducah hotel. She left here for Black Rock, Ark., to visit her sister, but left there some time ago for St. Louis, and has since been missing. In Chicago the body of a young woman was discovered cold in death. Police think she committed suicide, while other reports say she died at the home of a midwife. She gave the name of Lillian Tucker and her residence as western Kentucky.

Detective T. J. Moore has written for more information to the Chicago police.

On November 17 Father Jansen will have been here 25 years, and a demonstration will be arranged by members of his church. Knights of Columbus will take an important part in the celebration.

STEPS ON SCALES; REINS LIFE.

Farmer Alleges Church Hounded Him  
Because He Got Weighed.

Peoria, Oct. 9.—Because, 16 years ago, he yielded to curiosity aroused by his expanding girth and had himself weighed, Rudolph Isch, a Woodford county farmer, alleges he has been hounded ever since by the members of the Anish church. He declares he has been driven from one position after another, his home has been broken up and his fortune dissipated. Today he fled suit against Rudolph Wilsig, a wealthy farmer and an elder in the church, for \$50,000 damages. Isch says that when he was excommunicated from the church for violating its rules by getting weighed members of his family were forbidden to eat with him or to have anything to do with him.

The Neophyte.

The candidate for initiation into illustrious Order of Whynodoodles had been tossed in a blanket, subjected to a haircut with a pair of sheep shears, compelled to walk on a gravel path with bare feet, and the performance wound up with his sliding down an inclined plane and splashing into a tank of water at the bottom.

Then he stood up before a high dignitary, who thus addressed him: "Stranger, you have safely passed the ordeal of introduction into this ancient and honorable order, and we hail you as a tried and well beloved brother."

"Brother," sputtered the shivering wretch, his voice trembling with indignation. "Darn yer picture, if you treat a brother this way, I'd like to know what you'd do to some feller you had it in fer!"—Chicago Tribune.

Too often the error of a minute becomes the sorrow of a lifetime.

To which does a man owe the supreme duty—the state or his party?

Meat packers are enjoying a Shakespearean dinner in Chicago. Some of the little ones may toast the trust in these words of Cassius: "Upon what meat doth this great Caesar feed?"

Why the presence of a fleet of our vessels in the Pacific ocean, which laps our shores for a thousand miles and the fortification and garrisoning our long neglected island possessions, should be considered by our own people as acts of war, is beyond our ken.

### A \$60 JOB.

Mr. Arthur Y. Martin, candidate for city attorney, is a Democrat.

He was born a democrat, and, as the esteemed News-Democrat well said, giving particulars as to the number of his ballot and precinct, he participated in the primary.

But, Mr. Martin was not a candidate for any office at that primary and asked nothing of the party merely participating as he had the right, because he had supported the ticket in the past. How he votes this fall is none of our business, none of the News-Democrat's business, and the business of nobody but himself so long as Mr. Martin casts his vote conscientiously and in a spirit of patriotism.

The News-Democrat is exploded, let us dissect the editorial itself, which was written by the chairman of the county Democratic executive committee, and see what sort of an attitude he has caused the News-Democrat to assume toward one of the most important offices in the gift of the people of Paducah.

"For a mere financial consideration of \$60 per month," is the way this astute lawyer sizes up the office of city attorney, and, we presume, he, as the head of the party machine in McCracken county, looked around for a man to fit a \$60 job in making his choice for the office. And let us add right here as an interesting coincidence, that his and the News-Democrat's choice for the office is the nominee of the party, defeating John G. Miller, Jr., a young man of the character of Mr. Arthur Y. Martin.

Joe Folk, of St. Louis, occupied a position similar to the one for which Mr. Martin has been nominated. The office of police court prosecutor has been handled about as a \$60 job for ambitious politicians too long for the good of Paducah. The necessity of the city employing an extra attorney to assist the city solicitor in fighting an appeal from police court in the Hugh Boyle case recently, when the city attorney should have attended to it; the reduction in police court of the fine of a convicted "blind tiger" keeper at Eleventh street and Broadway from \$100 to \$30, and numerous instances of a like nature, reveal the urgent need of someone in that office, who will protect the interests of society, and view the office as a trust apart from the modest emoluments, which seem to have stuck in the eye of the Democratic county chairman.

Mr. Arthur Y. Martin had no personal political plans when he participated in the Democratic primary. He did not seek the Republican nomination for city attorney. He was urged to make the race for the office as a good citizen, because he is eminently well fitted for the place, and because he, as no one else that could be found, can redeem the police court from the deplorable condition into which it has fallen.

He has deceived no one as to his past affiliations. No one was deceived when he was asked to run. If good Republicans in Paducah, anxious to see the welfare of society safeguarded in the police court, are willing to take up a young man of his calibre, who surrenders nothing of his political convictions, why cannot the better element of Democracy rally to his support in the same cause?

We have taken the attitude that the position of the police court prosecutor is one of grave responsibility and serious duty. The News-Democrat speaks of it as a "mere financial consideration of \$60 per month." The News-Democrat supports A. L. Harper for a \$60 job; we support Arthur Y. Martin for an office of trust. Take your choice.

Not only are long terms of school, better paid teachers and better equipment desirable, but the schools should be in the hands of moral people, as example is as important as precept in the training of the young. A state school system with an immoral person at its head would be deplorable. We trust the teachers of the state and the parents, who are interested in the welfare of the schools, will inquire diligently into the moral character of the aspirants to the office of superintendent of public instruction.

### SOUTHERN IMMIGRATION.

The Chicago Tribune is wasteful lots of gray matter, imagination, ink and space, worrying about the south's immigration problem, and berating the attorney general, because he has held that a state may not send agents to Europe to solicit immigration, by offering laborers their fare across and wages after they get here. Somehow, it seems the Tribune is worrying about this more than is the south. It may surprise the Tribune to learn that the south is not particularly foolish over any sort of immigration; and the immigration of foreign laborers is not being generally encouraged at all.

There are certain classes of industries, which moved down into the Carolinas from New England to escape drastic laws, and which are hungering and thirsting after more families to work in their mills. They have agents in Europe trying to secure ship loads of immigrants. These manufacturers compose the south, as the Tribune sees it.

The ruling of the attorney general does not affect the western Kentucky movement in the least. We are seeking men only, who have money with which to buy land. We desire to encourage the influx of thrifty, intelligent husbandmen, who increase our wealth, not pauper laborers, who must needs put their little ones to work in the mills, so that they will grow into ignorant, half-developed sickly men and women to populate our country with their offsprings and bring a curse upon the land.

Tom Harrison is at considerable pains to deny that he offered Chief Collins a place on the police force. The Sun never said he did. The Sun said Chief Collins was offered a place on the police force under Mr. Harrison, should the latter be elected mayor. The proper denial of such an allegation would come from Chief Collins. Mr. Harrison may hide his hind friends. If the story in The Sun was untrue, a card from Chief Collins no doubt would suffice to prove its falsity.

## YEARS OF SUFFERING THEN RO-BUST HEALTH.

Great Remedy Cured Skin Disease of Long Standing.

Mr. J. Weber, of 1965 Vine street, San Jose, Cal., writes an interesting story of terrible skin suffering which ended in robust health when he found a remedy which cured him like magic. Here is Mr. Weber's own story:

"In July, 1900, my face began to be affected with a terrible skin disease. I went to a doctor, and he told me that I had been poisoned and he wanted to operate on me. I refused to let him do so and after a few months my face was an awful sight. You could see that it was diseased to the bone. Some people claimed that I had cancer. Great boils would appear, increasing in size and pain. I began to doctor myself, but no one could help me; large pimples and boils would continue to come. At that time I had as many as ten on my face. I was such a terrible sight that my friends could not bear to see me. I doctored for five years until my funds gave out and I had to stop. During this time I tried over 300 remedies.

"One day I happened to hear of D. D. Prescription and learned that it had cured several bad cases of Eczema. I purchased a bottle and then I got a second bottle. The use of five bottles cured me. It has been eight months now and the disease has not returned. My friends ask what it was that cured me of the awful skin trouble and I answer that it was D. D. which healed me."

We know that every word of the above letter is absolutely true. We keep D. D. Prescription, the great remedy for eczema, psoriasis, salt rheum, dandruff, etc., because all the cures it has made appear to be lasting. Come in and talk to us about this remedy.

The condor, the great vulture of the Andes, is four feet long and its average expanse of wing is about nine feet. Sometimes it soars as high as six miles, far above ordinary clouds, and thence makes a wide survey for prey. It is a voracious eater, preferring deer, llamas or young cattle for its food, and after meals is almost unable to fly, and is easily captured.

### Matchless Workmanship.

Most diseases are of spinal origin. That is a characteristic generalization of Osteopathy in a nutshell, and is a contention that has never been disproved.

The Osteopathic diagnosis, and treatment are new and original, and its percentage of cures have attracted wide attention. This is history that cannot be successfully challenged.

We apply in a new way and with new force, old principles that are a part of the recognized, but theoretical teachings of every school of practice but in an unsystematic form.

You cannot study the anatomy of the spinal column without marveling that it so seldom gets out of order. It is the most matchless piece of workmanship in all mechanics, and the wonder is that it should, sometimes, from the way it is abused, do its work at all.

By all laws of physics, the spine is liable at any moment to get out of order. It is subject to slips, wrenches, pressures, dislocations, sprains, contractions and congestions—any one of which require only an intelligent engineer to adjust, to relieve and cure. The Osteopath is that engineer.

In just a few moments I can easily explain to you why and how Osteopathy is achieving such a wonderful success in curing all kinds of chronic and acute illness, and I shall take great pleasure in doing so.

Just now you may have a touch of the Fall ailment, to which we Paducahans are heir. If so, let me tell you how easily, how quickly such ailments yield to the Osteopathic treatment.

### Conclusion.

For years past the legislation enacted by the Democratic party and dictated by certain of its leaders, has not been for the benefit of the citizen, but of the officeholder. The chief aim of such legislation has been the continued holding of office and the creation of new offices to be traded in as rewards for party service.

The citizen is at least realizing, as never before, that the administration of public affairs is a business that comes close home to him; that such business must be honestly and efficiently conducted and that his ballot should not be cast as a matter of sentiment, but for that candidate or that party which shows the highest capacity for properly conducting the affairs of the state on strict business principles.

We ask the support of all patriotic citizens, regardless of their party affiliation, for the state ticket selected by this convention, and for the policies and principles above stated, believing that it will insure better days for Kentucky.

service. The speaker said there are 3,000 rural routes operated at an annual cost to the government of \$21,000,000. These routes cover every state and territory except Alaska and the Philippine Islands. In the number of routes Illinois leads with 2,777, while Georgia stands fourth with 1,131.

Two notices will probably be selected as the next meeting place of the convention, there being no other candidate.

## MORE REASONS Why We Deserve Your Drug Store Patronage:

A prescription is an order from a doctor to a druggist for a specified amount of medicine of a certain kind and quality with directions for its use by the patient. Experience has taught most physicians that in many instances medicinal preparations made by certain brands give better results than others that may be had for perhaps half the money. For this reason a doctor often names a certain brand of medicine which he wants used in his prescription. Very often it is easy for a druggist to use the cheaper brand. This practice on the part of the druggist is called substituting.

The physicians of Paducah know that we do not substitute. Our immense stock enables us to give exactly what the doctor orders.

Furthermore, business integrity is not a mere jest with us. It is the foundation of our large and steadily increasing prescription business. All the doctors know that our name on the label guarantees the integrity of the medicine.

Bring us your prescriptions.

## CUBS VICTORS IN SECOND OF SERIES

Win From Detroit Tigers by Score of 3 to 1.

Slow Pitching and Several Slight Accidents Delay Game For Two Hours.

### HOW THE BATTLE WAS WON.

Chicago, Oct. 10.—The Chicago National league team defeated the Detroit Tigers in the second of the series for the world's championship yesterday afternoon. The score was 3 to 1. Slow pitching and several slight accidents caused the contest to drag out after two hours, the delay trying the patience of the big crowd which again filled almost every inch of seating room. The local team discarded the new gray uniforms in which they appeared yesterday, appearing in their clean white home uniforms. The change seemed to put them more at ease and also apparently benefited the Detroit players, for both teams played more steadily than on the opening day. After the first four and one-half innings had dragged through an hour and thirty-five minutes, some sparkling fielding, sharp hitting and base running hastened the contest to an end. Mullin and Pfeister were the pitchers and Payne went behind the bat in place of Schmidt otherwise the team lined up the same as on the preceding day. Schmidt's retirement was due pri-

marily to his inaccurate throwing, but in this respect the change brought small improvement, as five stolen bases credited to the local team testified. Playing conditions were improved, the crowd numbering 21,901 as against over 24,000 yesterday, while the warm sunshine and the absence of the chilly breeze of the first day kept the spectators and players in more comfort. What wind there was blew across the diamond and aided the play more than hindered it. Rossman, whose hitting was the real feature of the contest, scored the first run of the game in the second inning. Chicago tied the score in its half of the inning while Mullin was giving a queer exhibition of poor and good pitching. Kling, Evers and Schulte singled in succession filling the bases, with none out. Then Tinker drew a base on balls, forcing Kling home. Right there Mullin suddenly regained control of his curves, striking out Pfeister and Slagle, while the best Sheppard could do was a puny grounder to Schaefer. The winning runs came in the fourth. Tinker's hit bounded off Mullin's glove, he went to second on a sacrifice and stole third. O'Leary fumbled Slagle's grounder, Tinker scoring. Slagle stole second and came the rest of the way home on Sheppard's two base hit past first base. After that fast fielding prevented any further scoring.

### NATURAL TO SAVE LIFE ON RAIL.

President Plans for Federal Control of Road's Physical Condition.  
Washington, Oct. 9.—It is reported that one of the important pieces of new legislation, along progressive lines which President Roosevelt will urge in his forthcoming message to congress will be a measure giving the interstate commerce commission power to deal with the physical construction of railroads to the extent of insuring safe roadbeds, flawless trackwork and generally to look after conditions that involve the lives and limbs of passengers.

The necessity for conferring some such powers on the federal authority in connection with the regulation of interstate commerce appeared to members of the commission several months ago when some sensational testimony was given by steel manufacturers relative to the inferior quality of rails purchased by certain railroads which run the fastest passenger trains over their lines.

Since then a quiet investigation has been conducted. Photographs have been taken of portions of the track of one of the big roads in the west which show conditions calculated to excite agitation for reform.

## Satan Sanderson

Satan Sanderson is the true embodiment of the requisites that make a really great story. It gives the reader a look into a little world of action where all of the emotions that make or mar life—and lives—are set in swift, exciting play—one against the other. Incident follows incident with quick succession, and a vivid panorama of intrigue, mystery, love and strange adventure kindles the interest to the last page.

Written in a charming style, brilliant in coloring, picturesque in background, faithful in characterization and intensely dramatic, with stirring climax, Satan Sanderson is by all odds the best story of the year.

## Wife of Millionaire Confessed That She Became Servant to Steal

Chicago, Oct. 10.—In a remarkable confession to the police last night Mrs. Charles J. Romadka, of Milwaukee, wife of a millionaire manufacturer, admitted that she was responsible for a series of burglaries and petty thefts that have baffled the authorities for weeks. Mrs. Romadka's confession was the latest development following her arrest for robbery committed at the home of C. E. Burk, where jewelry valued at more than \$1,000 was taken. She implicated in her perjured testimony, Albert Jones, and a man named as Ralph Spina. The former is under arrest and the police are searching for the latter.

She tells of several instances where she answered advertisements for servants and then robbed the families. Attorney J. F. Donovan, of Milwaukee, who represents the woman's husband, will defend her in court. Mrs. Romadka went to Milwaukee when she was eighteen years of age. After a short courtship she married Louis Romadka, the ceremony taking place at Oshkosh. According to the attorney, the new life into which her millionaire husband introduced her, turned the woman's head.

She persuaded her husband to let her live in Chicago, where he kept her liberally supplied with money. She confessed that she turned the stolen property over to Jones.

## RAILROAD NOTES

An improvement to prevent delays to the fast Paducah-Cairo Illinois Central passenger train, No. 801, which leaves here at 6:15 p. m. daily, has been ordered, and work will begin at once. It is the extension of a spur track to the east side of the north station platform, and when finished it will make it possible for the Cairo train to leave without interference from the fast Louisville-Memphis train or other trains.

The siding known as the "Katterjohanna brick spur," running from the main shop lead to Caldwell avenue, will be extended straight to the end of the station. This will enable yard men to hook the train to the station and load without interfering with trains on the main line. Often the Cairo train is delayed in getting out by the fast Louisville-Memphis passenger train being late. The Cairo train connects with No. 5, a fast through train from New Orleans to St. Louis and Chicago, and a few minutes means a great deal in making connections at Cairo.

Mrs. C. W. Woodruff, wife of the well known Illinois Central pattern maker, is improving from an attack of fever.

Mr. Harry Judd, the Illinois Central pattern maker, is ill today and unable to be on duty.

Callie Dickenson, of the Illinois Central round house, was taken suddenly ill yesterday and forced to lie off.

Passenger trains Nos. 835 and 836 between Paducah and Cairo, claim to have broken the record for running yesterday on the Cairo extension. The crew was composed of Engineer John Mulvin, Fireman E. L. Brake and Conductor Coburn, and the run to Paducah from East Cairo was made in less than 50 minutes. Mulvin started out late, and made all scheduled stops.

Illinois Central conductors, flag men and porters must present a more tidy appearance, and the order has been posted on all divisions of the system. It is the result of a recent tour of President T. I. Harahan, of the road. The bulletin in part reads:

"In a recent trip over the system the president noted the untidy appearance of passenger conductors, flagmen and porters, and suggested that they be required to wear cleaner uniforms and kept dressed up to the rules." The bulletin follows with orders to all employees in the passenger traffic department to see that the order is carried out. Conductors are held responsible for the appearance of their subordinates. The bulletin is signed by Trainmaster Galway, of the Fulton district of the road, and similar orders have been posted on other divisions.

Norbury of Jacksonville, on "Education of Physicians and the Public Regarding Insanity," and an address by Dr. Richard C. Cabot of Boston, Mass., on "The Social Aspect of Medical Work." ### Cost of Removing Snags.

The cost of removing snags from boats and barges is no inconsiderable item in the course of a year, and the number the United States snagboat has been called upon to remove has attracted the attention of the department officials, and it is expected a ruling will be issued in the near future requiring river interests that have snags to remove them, or pay a reasonable charge for the work where done by United States employees.
